SFFD Division of Training  
Division Update October/November 2025  
ADC Marc Kasper

The following lists the activities for the month of December:

- Attended Fire Commission meeting
- Attended weekly meetings with Division of Training staff
- Attended weekly meetings with CD2
- Attended 5 year anniversary of Community Paramedicine
- Hosted a podcast on 12/1 which was released titled SFFD Career Paths with the Molloy family highlighting EMS, Suppression, and Prevention.
- PG&E substation trying was held for several companies and 1200 Broderick and several days during December.
- Attended a meeting at HQ on 12/2 for a Management Training Program
- 12/3: Conducted interviews for H28 and H16 for the upcoming 137th Academy.
- 12/5: Attended I attended a meeting at HQ for ISB to present findings for candidates of the 137th academy.
- Held 2 sessions of the Driver / Tiller academy for members of the 134th coming off probation.
- 12/8: Attended a meeting at TITF with ADC Molloy to coordinate RC's and Medic units into the drill schedule.
- 12/8: Attended a crab dinner with SFPD at Station 4.
- 12/1: Attended a virtual meeting for TIC Training in July.
- 12/1: Attended a press event at City Hall for PFAS free turnouts.
- 12/1: Attended the graduation for the EMS academies on 12/12 at the Southeast Community Center.
- 12/12: Responded as the Safety Officer on 2 Greater alarms.
- 12/18: Attended the "Run by" at HQ and participated in Push-Ups with the 136th.
- 12/19: Hosted the graduation of the 136th Academy at Riordan High School
- 12/22: Attended a TEAMS meeting on the Chestnut St. investigation.
- 12/22: Attended a retirement party at HQ for MIS Jesus Mora.

**Activities and Projects:**

- The 136th academy has graduated and we have hired three H28s and two H16s due to prior instructors returning to suppression. The Recruit Staff is currently preparing for arrival of the 137th on 1/26/26.
- Special Ops is conducting several drills throughout the city. Currently, they are preparing for a large scale multi-agency extrication drill on 1/7 which is part of our collaboration for other training opportunities. SFFD will have multiple units participating in the drill.

- The DOT is developing a Rope Rescue Awareness and Operations Cadre. We are continuing to task book our instructors and the DOT has partnered with the Airport Division to utilize their RRAO classes to develop more instructors.
- The Federal Excess Program enrollment has been completed. H16 Narayan and I visited Moffet field to look at some possible training and rescue equipment for possible procurement if it becomes available. This program will provide vehicles, tools, furniture, and rescue gear free of charge when it becomes available.
- H16 Neal Narayan has been creating training videos, podcasts, and rebuilding our Vector Solutions online training. These videos generate CJAC funds from our members. The podcast for January has been recorded and is currently getting final edits. The subject will be Cancer prevention with the host being retired Lt. Leo Tingen. Also in attendance was retired FF Adam Wood, Dr Chang, and FF Christina Zammarchi. We believe this podcast will grab national fire service interest as SFFD is the industry leader.
- The DOT hosted several classes through CJAC funds in the month of December including Inspector 1C, and 3 “Access Granted” Lock Pick Classes to limit damage to buildings for non-emergency entry. These classes were well attended and in high demand.
- In-Service staff are currently taking training to the field and visiting stations to conduct training. This will continue to happen between large modules and will utilize fire houses and other locations in the city.
- In Service Training has been having multiple live burns. The props have been re-imagined making it more realistic with bedrooms, kitchens, closets, furniture, cabinets, and hoarder conditions. Wet hay has been used to produce smokey conditions, but the fire is kept small for safety. We are very aware of using organic materials for our members’ safety. This, along with safety lines, escape doors and training staff monitoring with TIC’s, make a very realistic and safe training evolution.
- In Service Training is currently developing a collaborative drill with EMS and Suppression highlighting RIC, EBSS, Communication, Victim Removal, and Turnout Removal for patient care. This drill will be implemented in January.
- We have ordered 2 additional Connex Boxes for TITF to further enhance our Live Fire Props. They will be delivered on 12/31. We also ordered 3 realistic rescue mannequins for the live fire drill to ensure our members get the experience or realistic victim removal. This was all funded by CJAC.
- The DOT is working on a Virtual Command and Control exercise for our chief officers which will consist of radio traffic, a fire scenario, and assigning companies. Additionally, it will have a Tablet Command component for tracking companies. BC Cannon is assisting with IPAD and Tablet Command.
- We have several classes on the horizon from the DOT. Will have Fire Investigation 1A in February taught by retired member Steve Engler. In the coming months, a second offering of the Lock Pick class, Thermal Imaging train the trainer, and a possible Lithium Ion training.
- We have completed final edits to the Weekly Drill Schedule; we added several references to training bulletins and added the current needs of our department. This document has continued to show success and has brought in CJAC funds due to the mandated drills. It has become a model for several departments in the nation. The Training Committee has committed many hours to its success.

- The DOT and the field have increased their support for the Fire Reserves. We are detailing companies to assist them on Thursday Training nights. Several officers have volunteered to assist with this. We have obtained equipment for them and are searching for a dedicated legacy apparatus to give them for training and company pride. Rescue 2 did extrication drills with them on 12/11 with two wrecked vehicles to drill on. Our RRAO Cadre will be teaching the basics of Rope Rescue with them on 2/17. We are currently scheduling a fireboat orientation with them in the coming weeks.

## **In-Service Training, James Draper, In Service Training Captain**

### **December 2025 Monthly Report**

#### **Report**

Continued with live burn at TITF. Rescues, RIC, and Decontamination elements are showing progress in the field. “Storm stick” training is now being used as a benchmark in training and is being used in the field.

Remote field training continues concentrating on “basics” ladders and hose leads per fire department training manuals.

The new training for December was all about firefighter survival. The modules will carry on into 2026. Broken down into phases, there will be a communication element, next is the “EBSS buddy breathing” element, and lastly the removal of turnouts from the downed firefighter, i.e., the “Strip and Flip”.

In-service also started up the hose tender ops at twin peaks, concentrating on Battalions 7, 8, and 10. These battalions were chosen because that is where the new hose tenders will be housed.

#### **Meetings and Planning**

1. Continued coordination with firehouse instructors and training teams to deliver daily drills and operations.
2. Equipment and prop maintenance including ongoing work on fire simulation burn boxes and vehicle fire props.
3. Planning sessions with training leadership to optimize upcoming training academies and specialized training modules for the crew.
4. Emphasis on hose tender operations focusing on placement, deployment, and tactical use in varied fire-ground scenarios.
5. Live burn exercises continued regularly to maintain proficiency in interior attack and fire behavior understanding.
6. Inservice team focused on field training activities, ensuring firefighters meet operational standards and safety protocols.
7. Haz-Mat training with the 95th CST and FBI. Structural collapse class, and Rope Rescue Awareness classes.

#### **Training**

Hose Tender, Ladders and Hose Leads, Live Burn, and Forcible Entry training continue through the month.

### **December 2025 Monthly Report**

NERT is a free training program for individuals, neighborhood groups and community-based organizations in San Francisco. Through this program, individuals will learn the basics of personal preparedness and prevention. The training also includes hands-on disaster skills that will help individuals respond to a personal emergency as well as act as members of a neighborhood response team. San Francisco is made up of many neighborhoods. NERT trains San Francisco residents to be one ready community when it counts. Together NERT can create a lifeline between your family and neighbors, and the City's emergency responders.

#### **Projects and Short-Term Plans**

- Develop Protocol for possible ICE engagement
- Prepare for Listos! expansion due to interest/demand in Spanish Speaking community, source materials, instructors, etc. Listos class was very well received, anticipate demand for courses to increase, more in depth topics (first aid, CPR training, curriculum delivered in Spanish) – NEED more books
- Secure funding for Go Bags
- Continue working on creating/scheduling of SF Ready and NERT Basic for Calendar Year 2026
- Integrate NEW ID Badge System with NERT Member App
- Revise Student Manual – last update 2020
- Revise Amateur Radio Band Plan
- Update NERT Web Page

#### **Challenges**

- APEX software, AKA NERT Member App, has ongoing bug reports. A dedicated SFFD IT Team should be put in place
- NEED more training equipment. The lifespan of equipment has been reached.
- ACS/NCT Training
- IT Support for Hardware and Software
